

# Technical Data Sheet

## Mydoprint-29

### For Noritsu\* D701/D703/D1005/ Green/Green II Printers

January 2015

### Printer Series Covered

Noritsu D701/Noritsu D703/Noritsu D1005/Green/Green II

\*Noritsu® is a registered trademark of Noritsu

### Mydoprint-29 Inks

Mydoprint-29 dry lab inks are designed to work with the Noritsu series printers listed above.

The improvements made to the formulations to the dye inks, have incorporated:

- Improved UV protection
- Excellent colour balance
- Greater resistance to heat and humidity
- Larger Colour Gamut
- Faster drying
- Enhanced B&W prints

### Features

**Mydoprint-29** is the ideal drop-in replacements to the original OEM ink as can be seen from the Charts above.

**Mydoprint-29 inks** can be introduced without any interruption of workflow when using Noritsu media and Noritsu recommended drivers and profiles. **Inks** can be inserted individually or as a complete set as the OEM ink runs out – a truly “plug & play solution”.

#### **Mydoprint-29 inks:**

- Perform to Density and Delta E tolerances well within the acceptable industry levels and are virtually impossible to identify from the OEM inks, and have been preferred in some instances
- Have vastly improved light fastness, complimented by new additives to combat heat and humidity
- are designed to:
  - Match the same exacting quality and specifications of the OEM ink
  - Be fed directly on top of the original ink
  - Be introduced as required e.g. one cartridge at a time
  - Not require new profiles or other adjustments to maintain the correct colour balance
  - Are USA manufactured
  - Not require a full system flush when used to replace OEM ink

### Warranty

**Mydoprint-29 inks and cartridges** are warranted to be free from defects in materials and workmanship until their expiry date. For Champion Digital Inks full terms and conditions, please contact your CDI Sales contact or email our Service Plus Department.
