Mydoprint-39 Inks

Mydoprint-39 dry lab inks are designed to work with the Epson series printers listed above and incorporate;

- UV protection
- Excellent colour balance
- Resistance to heat and humidity
- Large Colour Gamut
- Fast drying

Features

Mydoprint-39 are the ideal drop-in replacements to the original OEM ink and can be introduced without any interruption of workflow when using Fuji media and Fuji recommended drivers and profiles.

Mydoprint-39 inks can be inserted individually or as a set when the OEM ink runs out – a truly “plug & play solution”.

Mydoprint-39 inks;

- Perform to Density and Delta E tolerances well within the acceptable industry levels and are virtually impossible to identify from the OEM inks, and have been preferred in some instances
- Have additives to combat heat and humidity
- Are designed to:
 - Match the same exacting quality and specifications of the OEM ink
 - Be fed directly on top of the original ink
 - Be introduced as required e.g. one cartridge at a time
 - Not require new profiles or other adjustments to maintain the correct colour balance
 - Are USA manufactured
 - Not require a full system flush when used to replace OEM ink

Warranty

Mydoprint-39 inks and cartridges are warranted to be free from defects in materials and workmanship until their expiry date. For Champion Digital Inks full terms and conditions, please contact your CDI Sales contact or email our Service Plus Department.
